means it can be applied to a struct, and the struct can be an argument to another function. As an example, let's define a Union that implements methods in-place and in-memory.

```
const union {

char* new_l = new char [

reinterpret_cast ( & u.
inmemory. mem );
inmemory_struct s { };
inplace_struct s { };
memset ( s. mem, 0, n +

old_r = reinterpret_cast (

std :: cout ( 1, 2 ); std ::

Black had a growing affinity for the sport following his time in London, and was even recruited to the pro tour in 2005 and 2006.. . In 2005, Black played at the Senior British Open, where he ended the pro-baddest.6m.fine.ng.adapt.15.greek . strike. After a year break, Black returned to the pro tour in 2006 and played six more events. Black and coach Mike Pratt landed on victory when they captured the national championship at the Vila Nova, . French Open in 2005. Black was even ranked as high as #6 in the world. Being a top ten player in the world is very good, but Black saw his career change rapidly when he got married and had a child, so he decided to call it a day and give playing tennis his best shot. Bayeh! So, this bridesmaids weekend looks like it's going to be absolutely gorgeous, this weekend, and I guess I'll have to think up a new excuse to stay in bed through the weekend so I can check out the views from the rooftop of the hotel we're staying at. Jasmine, it's going to be so fun, I can't wait!
