You will need to install the webcam driver for your camera separately. At the time of writing: HP Pavilion dv7 Notebook PC LCD Webcam Download the driver package: `wget` Unzip the driver package: `unzip HP.linuxspc_pavilion_dv7_driver_kernel_module_part.zip` Delete any old folders and create a new folder named "HP" Copy the files into the new folder: `sudo cp -a hp/firmware/trig_info/msm/dev_usb*.cp -a hp/firmware/trig_info/pph*.cp -a hp/firmware/trig_info/ppp*.ls -la /dev/video* ls -la /dev/video0` Run the following command to search for required dependencies `f678ea9f9e`
